AUTUMN & WINTER 2026

SEE YOU AT THE FAIR:
TRENDSET MUNICH JULY 11-13, FORMEX STOCKHOLM AUGUST 25-27

TRENDS & TENDENCIES

In a turbulent world, our need for calm and stability is growing. We all encounter our surroundings in different ways. Some seek relaxation and a slower lifestyle, while others value speed and excitement. Regardless, home will become increasingly important to us. We want to surround ourselves with beautiful things and create balanced environments that are both inspiring and calming.

This autumn & winter 2026, we present three expressive trend:

- Soft Living
- Rustic Heart
- Rebel Elegance

The autumn & winter 2026 catalogue is thick and well-filled, a full 344 pages of wonderful inspiration. The range is larger than ever and we present some new interesting product groups such as upholstered furniture and an expanded range of artificial plants, room fragrances and textiles.

It's easy to be a client at Wikholm Form...

...If you need help with your order or want to brainstorm ideas, contact your salesperson or customer service.

...Book a visit to our showroom in Borås, Sweden at [wikholmform.se](https://www.wikholmform.se) - An inspiring meeting place where you can see both seasons Spring/Summer and Autumn/Winter.

...Botanise in our webshop - We are constantly updating. Here you'll find the entire range together with inspiration and news. [reseller/wikholmform.se](https://reseller.wikholmform.se)

...This autumn you will find us at Trendset München July 11-13 and Formex Stockholm August 25-27. We hope to see you!

Warm regards

Peter Westlander
CEO, Wikholm Form

STORIES A/W-26

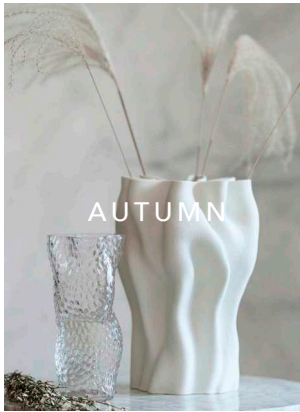

* SOFT LIVING

* RUSTIC HEART

* REBEL ELEGANCE

Soft Living

SOFTNESS, DEPTH, AND THOUGHTFULLY CHOSEN DETAILS COME TOGETHER IN A TIMELESS HARMONY.

Rustic Heart

TRADITION AND MODERNITY MERGE IN A STYLISH INTERPRETATION OF THE RUSTIC.

Rebel Elegance

A BOLD YET THOUGHTFUL HARMONY, WHERE LUXURY IS REDEFINED FOR A NEW GENERATION.

SOFT LIVING

AN ELEGANT SIMPLICITY THROUGH SOFT SILHOUETTES,
CAREFULLY SELECTED DETAILS AND A SOPHISTICATED COLOR
PALETTE. A CALM AND HARMONIOUS AESTHETIC THAT FEELS
PERSONAL AND TIMELESS, WHILE SELECTED MASTER PIECES GIVE
THE ROOM A SENSE OF EXCLUSIVITY AND CHARACTER.

WHITE, BEIGE AND GRAY TONES MEET SOFT PASTELS
IN A BALANCED COMPOSITION THAT CREATES A CRISP BUT
INVITING ATMOSPHERE. TEXTURES ARE ESSENTIAL IN THIS
TREND, TACTILE MATERIALS AND PATTERNS CREATE DEPTH.

*SOFTNESS, DEPTH AND SELECTED DETAILS
CREATE A THOUGHTFUL AND TIMELESS WHOLE.*

RUSTIC HEART

RUSTIC CHARM MEETS MODERN ELEGANCE IN THIS SOULFUL TREND.
ROUGH WOODEN BEAMS AND DURABLE STONE ARE COMBINED WITH
HANDMADE CERAMICS AND GLASS.

THE INSPIRATION COMES FROM THE SIMPLICITY OF NATURE
AND THE CHANGES OF THE SEASONS, WHERE CLEAN LINES ARE
COMBINED WITH RURAL WARMTH TO GIVE A TIMELESS
AND MODERN EXPRESSION.

NATURAL MATERIALS ARE USED IN A SOPHISTICATED WAY TO CREATE
A HARMONIOUS BALANCE BETWEEN RUSTIC AND STYLISH.

*TRADITION AND MODERNITY MERGE
IN A STYLISH INTERPRETATION OF THE RUSTIC.*

REBEL ELEGANCE

VIBRANT COLORS AND FUN DETAILS CREATE
ENERGETIC, JOYFUL ENVIRONMENTS WITH A UNIQUE TWIST.

A NEW CHAPTER OF ELEGANCE TAKES SHAPE,
WHERE TRADITION MEETS REBELLION IN A SOPHISTICATED
INTERPRETATION OF MODERN LUXURY.

THIS TREND CELEBRATES THE ART OF CONTRASTS,
WHERE NOSTALGIA PLAYS WITH THE AVANT-GARDE AND
CLASSIC EXPRESSIONS GETS A BOLD, CONTEMPORARY TWIST.

*A BOLD YET THOUGHTFUL HARMONY,
WHERE LUXURY IS REDEFINED FOR A NEW GENERATION.*

MATERIAL INFORMATION

STONEWARE the clay consists of a higher quartz content and is fired at 1160-1180°C for roughly 7-8 hours. This makes the stoneware durable. Depending on the placement of the product in the kiln, the colour of each product will vary making it unique.

REACTIVE GLAZE the clay is often made of stoneware and fired at roughly 1000°C for 6-8 hours. The product is then soaked in a glaze mix which is fired at 1230°C for roughly 5-7 hours. Depending on the placement of the product in the kiln, the actual colour of the glaze will vary for each product making it unique. Due to the high temperatures the actual shape of the products may also vary.

DOLOMITE is a white clay which is slightly more porous than the one used for stoneware. Due to its porous nature, it is easier to decide the actual colour of the glazes. The clay is fired in a kiln at 1050-1080°C for roughly 6 hours. Thereafter it is soaked in a glaze either by hand or a machine. The product is then fired in the kiln for another 7 hours.

TERRACOTTA is a clay-based unglazed ceramic, where the fired body is porous. Actual colours may vary depending on the amount of iron oxide in the clay. The different colours of terracotta are red, brown or yellow.

CONCRETE is a composite material composed of fine and coarse aggregate bonded together with a fluid cement (cement paste) that hardens over time. Silicone is then used to ensure that the products are waterproof.

FIBERGLASS is a common type of fiber-reinforced plastic using glass fibre. It is durable, waterproof, lightweight and can be molded into complex shapes.

FIBERCLAY is a mixture of concrete and fiberglass mesh. The product is lighter than concrete. The drying time is a few days longer than concrete.

GLASS during the creation of glass, silicon dioxide or quartz is used. The temperature reaches approximately 1500°C during firing. The majority of our glass is mouth-blown, which means blowing molten glass into a mold. This operation is performed with the aid of a hollow metal tube that has a mouthpiece at one end. Due to our glass being mouth-blown and shaped by hand, shapes and patterns may vary. The glass can be tinted or sprayed, which means that a colour is spray painted on the glass, this type of glass cannot withstand too hot water and that it cannot be washed in a dishwasher.

RECYCLED WOOD small cracks, nail holes, colour variations and other irregularities may occur but will give each product its own character making every product unique. Some natural changes may occur due to climate differences. This is natural and will not affect the durability of the furniture.

POLYRESIN is a ceramic and stone-like plastic material. It is more durable than ceramics and is well suited for casting figurines. Polyresin is not a frost-resistant material.

ALUMINIUM is a soft light metal that is well suited for casting figurines, candlesticks, bowls, etc. Cast aluminum products should be handled carefully as they easily crack if dropped.

IRON is a metal produced from iron-stone. It can be shaped by machine or by hand. Products made of iron will rust over time when in contact with water.

You will find complete information about our products in our webshop.

PRODUCT INFORMATION

Ceramic, concrete and glass products are mainly made by hand why variations in colour and appearance may occur.

Our ceramic pots and vases are water resistant though we cannot guarantee that they are 100% waterproof since there may be small air bubbles or cracks in the glaze.

Products made of ceramic or glass may give off condensation which is not to be mistaken for leakage.

Tensions can occur in glass products, which is why these should always be handled carefully.

Keep in mind that our metal and metal/mosaic garden furniture, and ceramic and concrete products, cannot withstand frost.

Candles/Candleholders/Lanterns/Marshall holders: Always use a fireproof base for the product. Check that there are no flammable materials nearby. Burn only tea-lights, candles or oil candles intended for the size of the product. Check that the burning candle does not heat up the glass product. Never leave a burning candle holder/lantern/marshall unattended. Never leave lanterns/marshals within reach of children and pets. Do not move the candle holder/lantern/marshall when the candle is burning. Extinguish the candle by suffocating the flame.

VINTAGE Our vintage-collection is a concept that consists of unique and antique items, handpicked and with ravages of time has left them with their beautiful traces. Antique objects age differently and have been used and treated in different ways. This gives each objects its own unique character.
